

Enterprise 2008 National Championship

Sailed under the burgee of Tenby Sailing Club 9 – 15 August 2008

Report by Paula Southworth

The Enterprise Fleet were given a very warm welcome at Tenby S.C., at the briefing, held in the sailing club on Saturday Evening. This followed a very damp registration and scrutineering day, where competitors, scrutineers and sheets were suitably damp!

The weather was to continue to play its part as Day 1, the Practice Race and Race 1, had to be abandoned on Sunday.

Day 2, Monday, was still not attractive. The fleet competed in a gusty Force 4 with gusts that gave competitors some very 'tricky' sailing conditions. Despite the weather conditions, which can only be described as 'challenging', Race 1, 2 and 3 were completed. The fleet will need to relax and recuperate in preparation for another round of problematic weather conditions on Tuesday and Wednesday, if the forecast is to be believed.
